

TURN COMPLIANCE INTO YOUR MOST PROFITABLE SERVICE

Make more money through improved IT security and robust compliance services for your clients. Our pre-built Compliance Management templates get you up and running fast.

The All-in-One Compliance & Security Solution for MSPs

Compliance Manager GRC makes IT security and compliance easy. From risk assessments and continuous monitoring to remediation and documentation, it streamlines every step—helping you protect clients and reduce cybersecurity risks.

Whether it's federal laws, industry standards, vendor contracts, or cyber insurance requirements, Compliance Manager GRC ensures you stay ahead of compliance demands—without the hassle.

Upsell Clients and Win New Business

MSPs often avoid selling compliance services because they're difficult to explain and require a fair amount of time and effort up front. Compliance Manager GRC helps eliminate these roadblocks by:

Generate a "Rapid Baseline Assessment"

in less than an hour. It reveals a high-level view of your prospect's compliance posture against any set of requirements you pick.

Automated and continuous monitoring of your device inventory compliance

Compliance Manager turns a difficult, expensive chore that can be a drain on resources into an easy, affordable and valuable process.

Simplified Risk Management

with simple and visual dashboard that shows where the most important and impactful issues are. Know exactly where to focus efforts and make data driven risk-based decisions fast and easy.

Unlock the Full Business Potential of Compliance Services

MSPs who offer compliance services don't just help clients meet regulations—they build stronger partnerships and create new revenue streams. With the right partner, compliance becomes a competitive advantage and a major driver of growth. Just ask Javier Dugarte:

"Before using Compliance Manager GRC, compliance was drowning us. One law firm client alone was costing us \$5,000 a month in lost revenue and wasted time on audits and documentation. We had to walk away.

But after implementing Compliance Manager GRC, everything changed. We streamlined compliance, focused on the right clients, and turned it into a major revenue driver—generating nearly a million dollars in professional services revenue this year alone."

– Javier Dugarte, VP of Sales and Operations, GO CLOUD INC

Compliance Manager GRC helps automate the compliance process and offers you new revenue streams.
