1 - Summary

This report provides details on the latest backup statuses from Unitrends, which consolidates multiple backup solutions, and is designed to provide documentation of backup activity and assurance of backups. Data for this report is imported directly from the Unitrends console.

2 - Backup Status

The following table lists backup status from the various types of devices being backed up by Unitrends backup solutions. In some cases, individual instances may be backed up through host level backups or another means and not contain an individual backup status.
